

**Social media toolkit**  
**“Spring Clean” Decluttering**

## KEY INFO

### **Thanks for signing up to help spread the message about recycling electricals in your local area!**

“Spring clean” is a key moment in time when many households declutter and tidy their homes. As with any clear out, it’s a time when people will come across those drawers or cupboards full of old, unwanted items - including electricals! We see this as the perfect opportunity to remind people that anything with a plug battery or cable can be recycled and should never be thrown in the bin.

This toolkit aims to help your residents know what, how and where they can recycle their old and unwanted electricals while decluttering their homes. If they find any unwanted electricals when doing their own Spring Clean, you can remind them to bag them up, see if they can repair, donate, sell or recycle their electricals, and help save precious materials from being wasted!

### **Please tag us on social media when using these toolkits**

The Recycle Your Electricals **social media accounts** are below. We are committed to creating quality content about recycling electricals and broader sustainability so please follow us and share our posts from your channels.

<p>Repair, Donate, Sell, Recycle</p>	<p>Facebook/ Instagram</p> <p>FB - Recycle Your Electricals</p> <p>IG - @reycleyou relectricals_</p>	<p>With spring just around the corner, many of us will be decluttering our homes. So what better time to finally tackle that drawer of old, unwanted electricals!</p> <p>When sorting through your old electricals, ask yourself:</p> <ul style="list-style-type: none"> <li>• Could this be fixed?</li> <li>• Could this be donated to someone in need?</li> <li>• Could I sell this and make some extra money?</li> </ul> <p>Repairing, donating or selling are all great ways to give your old electricals a new lease of life, while freeing up space in your drawers or cupboards - a win-win!</p> <p>If you can't donate, repair or sell your electricals, always recycle them. Simply bag them up and drop them off at your local recycling point using @recycleyourelectricals' locator: <a href="https://bit.ly/42WsWhk">https://bit.ly/42WsWhk</a></p> <p>#RecycleYourElectricals #DontBinItBagIt [add own hashtags]</p>	
	<p>X</p>	<p>Spring cleaning is the perfect time to tackle that drawer of unwanted electricals!</p> <p>Repairing, donating or selling your electricals can give them a new lease of life.</p> <p>If you can't do any of these, always recycle them. Bag them up &amp; find your nearest recycling point at @recycleelectric</p>	

Cables stat	<p>Facebook/ Instagram</p> <p>FB - Recycle Your Electricals</p> <p>IG - @reycleoyou relectricals_</p>	<p>Greetings humans, HypnoCat here. Put your human-paws in the air if you're holding onto old, unused cables?</p> <p>The average UK home is stashing 15 unused cables, and binning a further eight. If we add that up across the UK, that's enough to reach the moon - AND BACK!</p> <p>They might be small, but those cables are purrreecious. They're full of copper which, when recycled, can be used to create anything from new tech to lifesaving medical equipment.</p> <p>So stop squirrelling those cables away - pop them and any old electricals in a bag and find your nearest recycling point: <a href="https://bit.ly/42WsWhk">https://bit.ly/42WsWhk</a></p> <p>Follow @recycleyourelectricals for more decluttering and recycling tips!</p> <p>#RecycleYourElectricals #DontBinItBagIt</p>	
	X	<p>Greetings humans. Did you know the average UK homes is stashing away and binning 23 cables?! Cables may be small but they're full of purrreecious copper.</p> <p>Bag them up &amp; find your nearest recycling point at @recycleelectric</p> <p>#RecycleYourElectricals [local hashtags]</p>
